Liberty Fund Inc. Paperback. Book Condition: new. BRAND NEW, Liberty and American Experience in the Eighteenth Century, David Womersley, Written by some of today's premiere scholars of American history, Liberty and American Experience in the Eighteenth Century examines some of the central themes and ideologies central to the formation of the United States including: David Womersley's introduction includes a discussion of Edmund Burke's theories on property rights and government, setting the foundation for the various themes of liberty found in this volume. Robert Ferguson explores the roles of law and religion in the formation of a free and liberal society in 'The Dialectic of Liberty: Law and Religion in Revolutionary America'. In 'Religious Conscience and Original Sin: An Exploration of America's Protestant Foundations', Barry Shain supports Ferguson's contention that religion had a profound impact on the outlook of the colonists. John Danford, in 'Riches Valuable at All Times and to All Men: Hume and the Eighteenth-Century Debate on Commerce and Liberty', examines the spiritual context of the Founders in regard to the Enlightenment, arguing that the Founders preferred known ways of governance and economics to untried and untested theory. 'Moral Sense Theory and the Appeal to Natural Rights in the American Founding' by R G Frey suggests that there are conflicting viewpoints between moral sense theory and the idea of natural rights in the founding period. David Wootton presents an opposing view of the Founders in 'Liberty, Metaphor, and Mechanism: Checks and Balances and the Origins of Modern Constitutionalism'. He suggests that the ideas formed...
