The patient s vision when first tested was only J. 20, but on March 31st was J. 1 and fg. There was no history of blow or any illness except that the patient was liable to attacks of rheumatic gout (probably true gout). The urine and heart were normal. The patient stated that for the last two years he had been subject to bleeding from the right nostril once or twice a week, but that this had ceased from the time his sight became defective until two days previous to his vision being found normal, a period of about three months. The President observed that it seemed clear that the patient had suffered from true gout, and haemorrhages were not infrequent complications of that disease. Mr. Nettleship thought that...
