The saying It s a jungle out there refers to a competitive environment in which you d better hone your skills if you hope to survive. And you d better do what you can to keep a roof over your head, food in your belly, a leaf on your loins, and a mate who ll help pass on your genes to the next generation of jungle Jims and Janes. Distinguished professor and cognitive psychologist David Rosenbaum takes this metaphor of surviving in the wild and applies it to the competitive arena within the brain. Competition within your brain does as much to shape who you are as the physical and figurative competition you face externally. Just as the jungle night seethes with noisy creatures beckoning their mates, issuing their warnings, and settling their arguments, you might have trouble falling asleep at night because the thoughts in your head are fighting for their chance at survival. Rosenbaum s pursuit of this bold idea explains why we are shaped into who we are, for better or worse, because we are the hosts of inner battlefields. Written in a light-hearted tone and with reference to hypothetical neural creatures making their way in a tough environment, Rosenbaum makes cognitive psychology and his theory easy to understand and exciting to ponder. Rather than rely on the series of disconnected phenomena and collection of curiosities...
