

Creating a Local Area Network in the School Library Media Center

By Becky Mather

Greenwood Press. Hardcover. Book Condition: New. Hardcover. 160 pages. Dimensions: 9.5in. x 6.3in. x 0.7in. Let an award-winning school library media specialist who has implemented a local area network (LAN) in her media center help you plan this important addition to your media center while avoiding the pitfalls. This hands-on practical guide contains all the information the network novice needs to plan, fund, create, and maintain a LAN in the media center. Based on the experience of the school library media specialist who received the 1994 FollettAASL Microcomputer in the Media Center Award for creating a local area network in the high school media center, this guide describes the procedures for planning, designing, funding, installing, organizing, training, evaluating, and maintaining a LAN in a library media center setting. Step-by-step nontechnical instructions and advice for creating an information network are presented in an understandable format. How to expand into a school-district wide area network (WAN) and gain access to the Internet are also discussed. This comprehensive work takes the network novice from dream to implementation, maintenance, and evaluation of a local area network. It covers funding sources, tips for writing technology grants, requests for proposals from vendors, staff inservice and student training,...
