IMPORTED VIRUS INFECTIONS

Book Condition: New. Publisher/Verlag: Springer, Wien | Mobility of large parts of the human population, whether related to commercial necessity, touristic activities or to migration induced by war and social pressure, carried and carries the risk of spreading infections. Modern air travel effectively circumvents existing quarantine regulations as infected individuals thereby can reach almost every geographic location while still in the incubation phase of the disease. Hence, infections previously restricted to distinct regions due to their strict association with non-human reservoirs...
