Mind Tools: The Five Levels of Mathematical Reality

By Rudy Rucker

Dover Publications Inc., United States, 2013. Paperback. Book Condition: New. Reprint. 214 x 138 mm. Language: English . Brand New Book. This reader-friendly volume groups the patterns of mathematics into five archetypes: numbers, space, logic, infinity, and information. Rudy Rucker presents an accessible introduction to each of these important areas, reflecting intelligence gathered from the frontiers of mathematical thought. More than 100 drawings illuminate explorations of digital versus analog processes, logic as a computing tool, communication as information transmission, and other mind tools. Mind Tools is an original and fascinating look at various aspects of mathematics that is sure to fascinate the nonmathematician. -- Isaac Asimov A lighthearted romp through contemporary mathematics. . . . Mind Tools is a delight. -- San Francisco Chronicle For those who gave up college mathematics for what seemed more liberal arts, Rudy Rucker's book, Mind Tools, is a dazzling refresher course. . . . He rekindles the wonder that can come from contemplating logarithms, exponential curves and transcendental numbers. -- The New York Times Book Review One of Rucker's greatest assets is his ability to make complexities comprehensible to the general reader without lecturing. -- The Washington Post Approaching all of mathematics,...

Reviews

This kind of pdf is every thing and made me seeking ahead plus more. It is probably the most amazing ebook i have study. I am quickly can get a enjoyment of reading a composed pdf.

-- **Florence Rutherford DDS**

Definitely among the best ebook I actually have possibly read through. It is really simplified but unexpected situations in the 50 % from the publication. You wont truly feel monotony at at any time of the time (that's what catalogues are for concerning in the event you ask me).
